BIG BATTLESHIP IDAHO GUARDED WHEN LAUNCHED

BATTLESHIP IDAHO AFTER LAUNCHING AND MISS SIMONS, SPONSOR

The superdreadnaught Idaho was launched at Camden, N. J. The launching was in every way a success, but was surrounded with the greatest precautions against enemy conspiracies or the presence of spies. For the first time in the history of the yard the public was not admitted to a launching. Only the sponsors and a few newspaper men having passes signed by the vice president of the company were permitted to enter the yard. Armed guards were at the entrance, and a detail of sailors from the Philadelphia navy yard was lined up on the launching platform.

Henrietta Emella Simons, granddaughter of Governor Moses Alexander of Idaho, smashed the bottle of champagne against the steel prow, while at the same time Miss Monroe

never broke against the side of the ship a bottle containing water from Snake river, Idaho. The red, white and blue ribbons of the champagne bottle stuck to the prow, floating gayly in the smoke arising from the ways until the ship made her bow in the Delaware.

The Idaho is the heaviest vessel ever built at the Camden yard and is 70 per cent completed. Her keel was laid Jan. 19, 1915, and she will be completed in six months. She is a sister ship to the Mississippi, recently launched at Newport News, and the New Mexico, built at the New York navy yard. Her length is 624 feet, breadth 97 feet 4 1/2 inches, displacement 32,000 tons and mean draft 30 feet. Her armament consists of twelve fourteen inch guns, twenty-

two five-inch, four three-pounders, four anti-aircraft guns and two torpedo tubes. She will be manned by 56 officers and 1,141 men.

EFFORTS TO AGREE ON FOOD CONTROL BILL ARE STILL BEING MADE

Conferees Are Busily Engaged in Big Task.

By Associated Press Dispatch.

Washington, July 5.—Food legislation was considered today both in the Senate and in conference.

The Senate, following its holiday recess, resumed debate on the food control bill, and conferees continued their efforts to reach a final agreement on the food survey bill, already passed by the Senate and House.

When the Senate reconvened, Administration leaders continued their efforts to reach an agreement in time for a final vote.

Reports were current that next Tuesday might be fixed, but there was little tangible upon which to base the rumor.

Administration leaders admitted that little progress was being made, and Senator Chamberlain, in charge of the bill, continued to make plans to introduce the petition for the enforcement of the closure rule.

Senator Pomerene, the first speaker, declared that the bill should unequivocally give the President power to commandeer commercial mines when exorbitantly high prices made it necessary, and in order to successfully prosecute the war.

He said he had information that the coal was held in railroad yards last winter when the supply was short to force up prices.

IMMUNITY WAIVER IS SIGNED UP

New York Police Commissioner Will Testify Before Probers.

By Associated Press Dispatch.

New York, July 5.—Arthur Woods, Police Commissioner, signed a waiver of immunity today in connection with the plan of the District Attorney's office to call him as a witness before the Grand Jury investigation into the Ruth Cruger murder case at the instance of Governor Whitman.

Pending the outcome of this inquiry, the one begun at the order of Mayor Mitchell has been suspended. It was explained that the Grand Jury would seek to fix criminal responsibility, if such exists, on the part of any policeman who may have been associated with Alfredo Cocchi, confessed murderer of Miss Cruger, for his escape to Italy.

Hardly had the jury gone into session, when the District Attorney's office received word that one of the important witnesses in the case had attempted suicide in his cell at the Tombs.

He is Stephen Smith, an Italian half breed serving a sentence, who wrote a letter to Mrs. Grace Hamilton, who solved the Cruger murder, telling her that he was the man that disposed of earth taken from Cocchi's cellar after her body had been buried there.

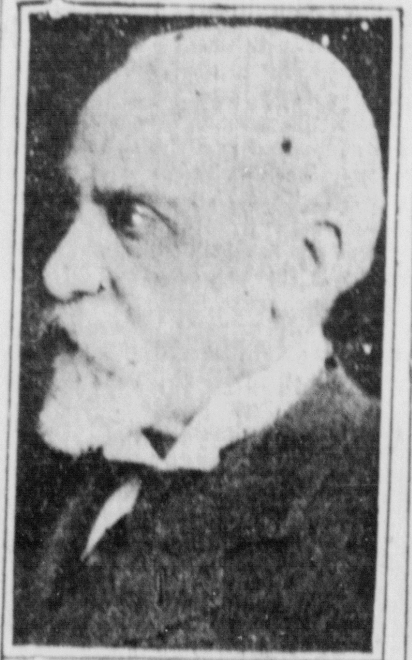

He is Stephen Smith, an Italian half breed serving a sentence, who wrote a letter to Mrs. Grace Hamilton, who solved the Cruger murder, telling her that he was the man that disposed of earth taken from Cocchi's cellar after her body had been buried there.

Chillicothe, O., July 5.—Difficulties arising over the location of the cantonment camp here have been finally surmounted, it became known here today with the receipt of official orders to proceed with the plans.

Athens, Tuesday, July 3.—(Delayed)—It is announced that General Haralambis, who was War Minister in the Cabinet of Premier Zaimis, will be appointed Chief of the General Staff.

The officers of the National Defense Army will be received by King Alexander on Thursday. Prince Nicholas, brother of former King Constantine, and his family, have sailed for Italy.

RED CROSS HEAD, SUCCEEDS HOFFMAN IN SWISS COUNCIL

GUSTAVE ADOR

Gustave Ador, the newly elected member of the Swiss federal council and chief of the political department, is known the world over as the president of the international committee of the Red Cross at Geneva and as such the recognized head of the International Red Cross. He succeeds in the Swiss federal council, Dr. Arthur Hoffman, whose peace activities aroused antagonism. Mr. Ador's administration of Red Cross affairs since the beginning of the great war has won much praise.

PREPARING ANOTHER OFFENSIVE

With Russian Armies in Line the Entente Forces Make Ready.

By Associated Press Dispatch.

With Russia proving that her army, now rehabilitated, can strike telling blows, the Entente forces apparently are preparing to resume the forward movement on the Western front.

Notable activity is developing in Belgium. Germany senses the trend of things there without question, and extraordinary efforts by her airmen to find out what is going on behind the British airplanes are reflected in official statements.

From all appearances, German flyers are having poor success. London's reports last night, for instance, show nine German airplanes put out of action to one lost by the British.

General Petain, on the French front, is bending his efforts toward retaining intact all the commanding positions his troops now occupy.

The latest German attempt to wrest control of an important sector on the Aisne from him not only came to naught with exceptionally heavy German losses, but the French in their reaction took a salient near Cerny from the Germans.

EXPECTS ANOTHER "DRIVE"

(Associated Press Cable.)

Copenhagen, July 5.—Lieutenant General von Stein, Prussian Minister of War and State, told a committee of the German Reichstag yesterday, according to dispatches reaching here, that a further British offensive was expected north of Arras, where General Haig apparently is preparing actions on a large scale.

The Minister said the abandonment of the Saloniki campaign was improbable, but regarded the Italian offensive on the Isonzo and in the Tyrol as shattered. His views on the Russian offensive are unreported if expressed.

FRANCHISE REFORM BILL REJECTED

(Associated Press Cable.)

London, July 5.—The House of Commons, acting yesterday on the franchise reform bill, or, as it is officially known, the representation of the people bill, decided by a vote of 201 to 169 to reject the principle of proportional representation.

CAR JUMPS TRACK AND ONE KILLED

Seventeen Others Injured in Youngstown Wreck.

By Associated Press Dispatch.

Youngstown, O., July 5.—Edward Scully, aged 35, of Cleveland, was killed, and seventeen others were injured here early today when a city bound interurban car jumped the track at Front street, near the viaduct, hit a telephone pole and crashed into a fruit store.

The front of the store, which was crushed in by the car, caught fire, but the blaze was quickly extinguished.

A. C. Boyle, 66, and Ivan Miles, of Youngstown, head injuries; John C. McLean, Wellsville, arms cut and Otto Fritz, of LeFonia, back injured, are also in local hospitals.

Seven others were taken to hospitals and later dismissed. Five others with minor injuries were taken to their homes.

The car, northbound, was bringing home Fourth of July picnickers. Railroad company officials would make no statement as to the cause of the accident.

LACK OF LUMBER DELAYS WORK AT NEW ARMY CAMP

By Associated Press Dispatch.

Chillicothe, O., July 5.—Temporary lack of lumber is delaying building at the army cantonment camp. Five hundred carpenters have been laid off awaiting the arrival of fresh material now enroute.

A number of buildings have been erected, all to date consisting of bunk houses and mess halls for the workmen. Work is expected to start to-

AMERICAN TROOPS OFF FOR TRAINING

Camp Instruction and Discipline to be Taken Up.

(Associated Press Cable.)

Paris, July 5.—The battalion of American troops that paraded in Paris yesterday has gone to the permanent American training camp.

The other units of the first expeditionary force, which are now at a French port, will leave shortly for camp instruction.

It is expected the entire expedition will be encamped by July 15. Major General William L. Sibert will command the camp.

BELGIAN DELEGATES OPPOSE IT

(Associated Press Cable.)

Stockholm, July 5.—The Holland-Scandinavian Socialist Committee publishes a long communication, in which the Belgians say they do not believe a durable peace to be possible with the Hohenzollern and Hapsburg dynasties retaining their present power.

They would not refuse to meet representatives of the Austrian and Majority German Socialists, they say, "if, renouncing their present errors, they take sides openly and in a manly way against their emperors." The communication says further that the basis for deliberation of such a conference would be anti-imperialism.

RIOTING IN ARIZONA MENACING

By Associated Press Dispatch.

Phoenix, Arizona, July 5.—A telephone message received here this morning by Attorney General W. E. Jones from County Attorney H. M. Foster, at Globe, Arizona, stated that the mine strike situation was entirely beyond control and that United States troops from Douglas, Arizona, had been ordered on the recommendation of Mayor Bundell, who is on the ground representing the government.

FOUR TROOPS OF CAVALRY

By Associated Press Dispatch.

Douglas, Arizona, July 5.—Four troops of United States Cavalry with a machine gun troop, left here early today for Globe, Arizona, because of strike disorders. They are due to arrive at Globe tonight.

3000 MEN UNDER ARMS

By Associated Press Dispatch.

Phoenix, Arizona, July 5.—At the office of the Governor, it was announced later, four hundred troops from Douglas have been ordered to the scene.

In his message to Attorney General Jones, County Attorney Foster stated that he and twenty-five officers have been compelled to sleep in the federal building, with their clothes on, for several nights.

There are at least 3,000 strikers with arms, he said, and the entire armed force of citizen deputies is about 300.

RACE WAR ABATING ALL QUIET

By Associated Press Dispatch.

East St. Louis, Ill., July 5.—Resumption of work after the holiday was accomplished today without any indication of a renewal of the race riots, in which more than a score of negroes and several white persons were killed earlier in the week.

A diminished number of negroes were on the streets returning to work but hundreds have left town, and some of the big plants admitted that their output would be curtailed thereby to some extent. Militiamen appeared to have the city adequately patrolled.

ALL AIRPLANES RETURNED SAFELY

(Associated Press Cable.)

Berlin, via London, July 5.—An official statement issued today by the German War Office regarding the recent German air raid on the English seaport town of Harwich says:

"All our airplanes returned undamaged after bombing the Harwich coastal works."

BRITISH CONTRA.

A British official statement on the Harwich raid issued Wednesday night said that the German aerial squadron on returning from its attack on Harwich, was engaged by Entente machines off the Belgian coast.

Two of the German battle planes were said to have been brought down in flames, while a third was seen to have been damaged.

The casualties at Harwich were eleven killed and thirty-six injured.

UPRISING IN CHINA IMMINENT

Troops at Peking Opposed to Return of Monarchy.

Prominent Former Officials Are Executed.

(Associated Press Cable.)

Tien Tsin, China, July 5.—A military clash in China is imminent. The troops of Peking are showing signs of opposition to the dictatorship of General Chang Hsun under the guise of a monarchy.

At the same time, the troops of Tsao Kun, Military Governor of the Province of Chi-Li, are mobilizing and preparing to proceed to Peking. Tsao Kun's action followed an ultimatum sent to General Chang Hsun giving him 24 hours to withdraw troops from from Peking. General Chang Hsun took no notice of the demand.

Executions and imprisonment of prominent officers have resulted from the disturbed state of affairs. Treachery and opposition to the Manchu restoration are given as reasons for this action.

The executions already number nine, among the most prominent being Prince Pu Lun, chairman of the Council of State.

A provisional government has been established at Nanking, capital of the province of Kio-Su. Baron Kwo Chang, ex-President of the National Assembly, was named president.

LOCAL MAN HURT IN ARMY CAMP WORK

By Associated Press Dispatch.

Chillicothe, O., July 5.—Lee Harper of Washington C. H., a workman at the cantonment camp, had two fingers severed Wednesday when a hatchet fell on his left hand.

4TH CASUALTIES FEW AND NONE OF SERIOUS NATURE

Ben Wetzell Is Burned About the Face by Firecracker—Fire Department Called Out Twice to Extinguish Small Fires—Damage Not Over \$10 in Either Case.

The celebration of the Fourth in this city was unusually quiet yesterday, and as a result there were very few casualties reported, and these were not of an extremely serious nature.

The only injury due to fireworks that has been reported, was that of Ben Wetzell, which occurred at the C. E. Lloyd home about 9:30 o'clock in the evening. A large "flower pot," which evidently had a defective fuse, exploded while Wetzell was stooping over it, flaring up and burning him about the eyes and left side of the face.

He was hurried to the Fayette Hospital in C. E. Lloyd's automobile and the injury which was very painful, was treated. The danger of blood poisoning was probably averted by the quick treatment of the wound. He was resting very easy this morning.

Fire on John Street.
At 10:20 p. m. an alarm was sent in to the fire department from John street, where the roof of a frame cottage belonging to Al Scott and occupied by Chester Smith, was on fire.

A Lifetime Servant For a Week's Wages of a Good Maid

This the Picture of One of the Servants.
**TWO TRAY FULTON
SERVICE WAGON**

Absolutely sanitary—a simple strong construction that will not collect dirt or germs—easily cleaned. Carrying wheels 19 inches in diameter, 3/4-inch tires. Small rear wheels are carried on a swivel and are nickle plated.

The trays are made of three-ply veneer. Size 26 1/2 x 18 inches. They have raised edges so that plates can not slide off. Spar varnish is used in finishing the trays so that hot plates or hot water will not injure them.

The frame is made of fine steel firmly riveted together and finished in enamel colors to match the trays. Weight 24 pounds.

Finishes: Mahogany, Early English, Fumed Oak, Golden Oak, Jacobean.

Price is \$9.00 and may be purchased at the furniture store of C. H. Moore, 128 South Main Street.

The fifth and last of these articles will appear in this space next Monday.

A record run was made by the department, and the blaze in the roof, which had grown out of control of a bucket brigade which had been quickly formed by neighbors, was extinguished before any considerable loss was sustained.

The fire is thought to have been caused by the blazing oil packing which fell from a balloon that had been sent up by some boys in the street.

The loss from fire was estimated at \$10. This small loss from fire in a frame house one mile from the engine house, testifies to the efficiency of the local fire fighting force.

Pump Shed Burns.
The John Street run had barely been completed when the department was called out a second time, to extinguish a blaze in the gasoline pump house in front of the Ford Hardware store on Main street.

When the fire had been put out, it was discovered that a leak had been made in the tank by the blaze, and it was miraculous that a disastrous explosion did not occur. The hasty work of the fire department was as effective in this run as it had been in the former.

Fire crackers were given as the cause of the fire. Exploded shells were found piled six inches high around the base of the shed. The loss was only slight.

LOCAL DRAFT BOARD WAITS NEXT ACTION OF GOVERNMENT

The local draft or exemption board composed of J. M. Willis, R. C. Peddicord and Dr. D. H. Rowe, have complied with all orders of the government received thus far, and the required duplicate registration cards are in the hands of the War Department at Washington.

The four complete lists of all men registered in Fayette county and their numbers which will be used in the drawing, have been prepared, and either placed in the hands of the proper authorities, or hung in the office for the use of the public and press.

The selection by the government of officials is expected to begin on the 7th of July, and following that date the local board will begin their investigation of claims for exemption.

The work will probably be completed within the next two or three weeks, so that the men selected may begin making preparation for leaving about September first.

RECRUITING CLOSSES WITH COMPANY M'S QUOTA 122 STRONG

Recruiting days for Company M have ended, leaving the total number of seasoned men and recruits standing at 122, just 28 short of the allotment for the county, for the National Guard.

The federal examining officer was in the city on the Fourth, and seven of the eight men waiting for examination were accepted, bringing the total up to 122.

One man demonstrated his patriotism by enlisting for service in Company M on the Fourth, but was rejected upon examination.

The remainder of the vacancies in the local company will be filled by the draft. The members of the company are now awaiting orders for mobilization, which is expected to come on or about July 15th.

IS BROUGHT HOME

Charles Lennox, who has been confined in the State Hospital in Columbus, was brought to his home in this city, Wednesday. He was brought back by Albert McCoy in the ambulance.

THOUSANDS HEAR FINE CONCERT BY WASHINGTON BAND

Band Is Better Than Ever—First Concert of Series of Eight—Crowd Pleased and Subscription Good.

A crowd estimated in the thousands of residents of the city and county were up town Wednesday night to hear the excellent patriotic program rendered by the Washington Band from the platform erected at the intersection of Court and Main streets.

The band this year is better than ever before. The great improvement under the able leadership of Director James Whelpley was demonstrated by the masterful manner in which they played the patriotic medleys and popular selections on the program. The music was well suited to the spirit of the Fourth.

The great crowd was apparently well pleased with the work of the band. A round of applause and chorus of claxons followed each selection. Financial subscription received were good.

The best part of all was the realization that the concert last night was only the beginning of the series of eight to be played on Wednesday nights during the summer months.

The boys will play at Buckeye Lake one week from next Sunday and many other contracts here and in adjoining towns are sure to follow.

The personnel of the band is as follows: Martin Cox and Frank Andrews, tubas; Wheeler Bay, baritone; Everett Cory, Wm. Walker, and Howard Allen trombones; Oscar Winkle, Richard Bell, Robert Kincaid, Charles Edwards, Elmer Zimmerman, altos; Charles Elliott, Ed Hare, Ham Smith, Charles Nichols, Charles Carrothers, and Warren Rogers, clarinets; Tom Clancey, piccolo; Albert Dickey, flute; Lee Rogers, solo cornet; Earnest Harvey, Charles Johnson, W. C. Lape, Oliver Tracy, cornets; Charles Rinehart and Floyd Miller, drums; Rankin Paul, drum major; and James Whelpley director.

LOCAL MAN SPEAKS ON SECOND OCCASION

Mr. Frank M. Allen of this city, who has been in Kalida, O., for a few weeks, at the death bed of his brother, I. M. Allen, has again distinguished himself as a public speaker.

Mr. Allen spoke at the Flag Raising ceremony in Kalida on Saturday, June 23.

The Kalida Record comments as follows upon Mr. Allen's part of the program:
"Hon. Frank Allen, brother of I. M. Allen, of this village, was then introduced by Dr. Watterson, chairman. Mr. Allen is a veteran of the late war who enjoys much better health and physical powers than the average. He spoke from a practical stand-point as only 'one who has been there' can."

FANS AND PLAYERS CONTRIBUTE FREELY

At the Fourth of July ball game between Washington and Wilmington at the Sunnyside Park, Mr. W. A. Tharp, delegated by the national authorities to take up a collection for the purpose of purchasing balls and bats for the American soldiers in Europe, passed the envelopes and "quarters" and change totalling \$33.22 was contributed by players and fans.

Mr. Tharp forwarded the sum collected to Columbus headquarters. Attorney Tom S. Maddox in a brief but patriotic announcement, instructed the assemblage as to the purpose.

SCOUTS RETURN FROM LONG HIKE

The twenty-seven Boy Scouts who hiked to the Worthington farm eight miles from this city, to spend the Fourth, returned this morning, enthusiastic over the good time enjoyed. They arrived at the Worthington farm about noon yesterday, and spent the remainder of the day fishing, swimming and playing baseball. The fireworks were saved for evening.

The return trip was made by automobile. Physical Director David Parker, and Assistant Secretary, Robert Johnson accompanied the boys.

NICE COMPLIMENT

Right now, when so many bond issues are being made by the public for the purpose of carrying forward the needed public improvements, notably centralized school buildings, there is nothing more important, after the people have expressed their desires, than that the records be kept accurately. By keeping records in proper

shape bonds are sold more readily and the funds realized are paid over more promptly by the purchasers, saving time and money to the public.

Regarding the sale of bonds in the sum of fifty thousand dollars by Union township for new centralized school buildings, the examining attorney for the bond purchaser took occasion to openly compliment Township Clerk Ray Maddox on the neatness and exactness of his records.

The sale was closed and the money paid over without any delay incident to correcting the records.

It was a nice compliment.

DEATH ENDS LONG ILLNESS

Mr. Joe S. Wilson, well known retired business man of this city, who has been seriously ill for the past twelve weeks, died Wednesday night at eleven o'clock at his home on E. Market street.

For some time Mr. Wilson has been in failing health and lived out his last years quietly, although retaining to the end a kindly interest in the community and his friends which was warmly reciprocated. He leaves a devoted wife, who has the utmost sympathy of many friends, one brother and one sister.

Mr. Wilson was a member of the John M. Bell Post and comrades share in the sorrow of the home.

Funeral services will be held at the house Friday afternoon at 2 o'clock. Burial to follow in the Washington cemetery. The John M. Bell Post will hold services at the grave.

DEATHS

BAINTER.

Mary Ann Bainter, 79, died at the home of her son, Jess Bainter, at Rock Mills, at 1:00 p. m., Wednesday. She leaves three children: Mrs. Ora Murray, Mrs. Bert Garringer and Jess Bainter.

Funeral services will be held Friday afternoon at 2:00 o'clock at the residence, Rev. Pfaltzgraf officiating. Burial will be made in the Good Hope cemetery.

WE ARE "CALLED"

Dr. Grant Marchant of Milledgeville has called our attention to the fact that a little more than seven years ago he received a wireless message from his father, Mr. John W. Marchant, then crossing the Gulf of Mexico to Havana.

The message was received in Washington, Dr. Marchant at that time residing here, by Postal Telegraph.

The wireless of more than seven years ago read:
"No. 14 D SC 10 paid.
Via Tampa, Fla.
Steamship Gov. Cobb at Sea January 19, 1910."

"Dr. Grant Marchant,
"223 N. Hinde Street,
"Washington C. H., Ohio.
"Out at sea; feel fine. Weather beautiful; thermometer hundred here."
"JOHN W. MARCHANT."
"5:17 p. m."

Quite naturally Dr. Marchant, reading the account in Tuesday's Herald of Mr. W. M. Campbell's wireless being the first received in Fayette county, took exceptions and very kindly "set us right" on our facts.

Dr. Marchant's father lived but a short time after sending the wireless to his son. Then enjoying an extended recreation tour through the southland and Cuba and cruising in southern waters he wired his son his appreciation of the benefits and pleasures he was deriving.

Returning home some months later he died in August of 1910.

So we learn again that we are never so badly mistaken as when we are dead sure we are right.

There isn't much new under the sun after all.

STILL "LOOKING IN"

At the Akron races on July 4th Black Wreath, of the Mallow Stables, took second money, finishing 1, 1, 5, 2, 2, in the 2:11 class pacing. Antwine, a new comer in the Mallow Stables, finished fifth in the 2:17 class pacing.

THE OLD RELIABLE STILL IN THE LEAD

Have you tried our hams? They are put up by the Columbus Packing Co. and are not salty, but sweet and good. They sell at 30c per pound. Try one and you will be convinced they are the best on the market. We have the best oranges in town at 35c per dozen.

Use Killo to protect your garden and home from bugs of all kinds. See us.

CRAIG BROS.

FUNERAL SERVICES EDWARD SEIBERN

The Seibern homestead on the Snowhill pike was crowded Wednesday with the friends and acquaintances of years of residence and active affiliation with the interests of the community on the part of the quiet sleeper over whom the last sad rites were being held.

The genial, kindly disposition of "Ed" Seibern, as he was known far and near, easily won and held friends and he will be greatly missed in circles reaching widely out from the home circle where the loss is felt most keenly. The large gathering was one of sorrowful tribute; remembrance also expressed in many beautiful flowers.

Rev. Arthur P. Cherrington, of Grace M. E. church, conducted simple and affective services and read the hymns.

A long line of automobiles accompanied the family to the Washington cemetery where the burial was made.

Acting as pallbearers were Hon. J. D. Post, Postmaster Sherman Murray; Messrs. Howard Engle, James W. Cockerill, George Gregg and Carson West.

Relatives here from a distance were Mrs. Blockman, Mr. A. N. Seibern, Mr. and Mrs. Geo. Seibern, Mr. and Mrs. H. F. Seibern, Mr. John Seibern and Mr. E. S. Eurrell, of Cincinnati.

GLEE CLUB CONCERT

The Muskingum music makers, a glee club quartet of Muskingum college follows who have toured New York State, Vermont, W. Virginia, Pennsylvania, Michigan and Ohio with much success, will give a free

concert at the First Presbyterian church Thursday night, July 5. The public is cordially invited.

The Food Bill, The Ice Bill And the Doctor's Bill

Are Closely Related
The health of the family depends upon the refrigerator. A cleanly made case, supplied with well-fitted drain pipes and a lining which may be kept in spotless condition is the best kind of health insurance a family can have.

The GIBSON REFRIGERATOR will save you in ice bills one summer a good share of the cost of the refrigerator. The GIBSON thoroughly meets all conditions of sanitation, circulation of air and economy of ice.

Let us show you how it works.

DALE On the Alley

THE PALACE

WASHINGTON'S FOREMOST PICTURE PLAYHOUSE

TONIGHT

Matinee Tomorrow 2:30. Wm. Fox presents the Incomparable

Theda Bara in 'Her Greatest Love'

Founded on Ouida's novel "Moth's" In this picture Miss Bara reaches the height of her artistic career in her impersonation of an unsophisticated English girl, and later that of a woman whose very soul has been torn by agonizing emotions. Miss Bara shows a versatility that has seldom been equalled in photo drama art. Her characterization of Vere Herbert is evidence that she possesses a depth of feeling and emotion entirely foreign to one who has made Vampire roles famous the world over.

Shows at 7:00 and 8:30. Admission 10c

Coming Saturday, July 7, Fatty Arbuckle in "A Reckless Romeo."

Coming Monday—Lillian Walker in "Indiscretion."

Coming Wednesday—Ethel Barrymore

The Harvest Time

Fayette County is now crossing the threshold of the great harvest season, indeed the harvest work, it may be said, well entered upon and before another week passes probably the greatest wheat crop this county has ever yielded will be reaped from the earth and safe in the granaries.

The wheat fields of the county are marvels of beauty and fertility this season. Never have there been so many splendid fields of waving yellow grain. Every effort will be put forth by the farmers to harvest the grain the first hour possible—no changes will be taken with the weather as an unexpected storm of wind, rain or hail would play sad havoc with the great crops which is now almost in hand.

For days anxious farmers having been arranging for men, getting their reaper and binder machinery in proper condition, their teams rested up and all in readiness for the big harvest round up.

Thousands of men and boys in Ohio cities and towns, realizing the importance of the work and the need of haste, drop their usual routine labors and go forth into the field to help in the harvest works.

Every day and every hour are precious now until the crop is saved. Everybody realizes that fact and everybody is going to help.

Hundreds of Fayette County fields will tonight reveal the rising moon the stubble and the sheaves where yesterday the heavy ripening grain shimmered a sea of gold.

Rising up out of the east the July moon will look down on a checkered landscape, and the man in the moon will smile with satisfaction at the results which the industry of man have brought in one day's time.

No factory in the land is busier now than nature's big workshop, where the crops are made by a mysterious process which we are but beginning to understand and with a capacity which we have never before appreciated.

Choosing the Course

Always in times like these of extraordinary public activity and tremendous demand for service of unprecedented time and variety the government officials are called upon to choose one of two courses. They must either practice economy at the expense of haste or they must make haste regardless of economy.

In either event there are always thousands who criticize. The government officials to regard economy as the first consideration, in the present stress, would, in our opinion, incur much more general criticism and be much more deserving of public censure than the course adopted.

To proceed with the execution of the tremendous program of construction which has been mapped out as imperative, to purchase all the necessary materials and contract, in the usual time for government construction work would involve inroads after elaborate specifications and estimates had been prepared all of which would consume months of time.

We want the work done and at the earliest possible moment regardless of the comparatively few dollars that might be saved by the application of peace time methods to the work of the hour.

Individuals, manufacturers and contractors, whose reputation for honesty and fair dealing is established, have been called upon to render service of the nation, officials relying upon them to do the fair thing, and it is not likely that they will pay the trust imposed.

Back to the Truth

The German people are told that the United States is unable to enroll any soldiers in the armies, that the liberty loan bonds do not sell, that the United States is short of food and is riddled with internal dissensions.

American officials have steadfastly set themselves against the course and have been inclined to magnify the powers of the enemy rather than underrate them.

The officials and the censors of the news in the United States have dwelt upon and emphasized the magnitude of the difficulties which confronts the nation.

Of the two courses, the one chosen by this nation is preferable. It rouses the people to action more quickly, prevents the breaking disappointments and dulls the keen edge of the enemy's sword if reverses comes.

There is, however, a marked tendency to go too far in emphasizing upon the prowess of the enemy. There is a very manifest attempt to magnify, unduly, economic conditions which may possibly, unless it is soon checked, bring about a panic.

It is dangerous—very dangerous—when the American people should maintain normal business conditions, when they are very correctly advised against all unnecessary curtailment of business activity and when there is no excuse in fact for the propagation of mistaken course—to continually give out statistical information which is not warranted by facts.

Poetry For Today

THE RUBICON.

One other bitter drop to drink,
And then—no more!
One little pause upon the brink
And then—go o'er!
One sigh, and then the librant morn
Of perfect day
When my free spirit, newly born,
Will soar away!

One pang and I shall rend the thrall
Where grief abides,
And generous Death will show me all
That now he hides;
And, lucid in that second birth,
I shall discern
What all the sages of the earth
Have died to learn.

One motion and the stream is crost,
So dark, so deep!
And I shall triumph, or be lost
In endless sleep.
Then, onward! Whatsoever my fate,
I shall not care!
Nor Sin, nor Sorrow, Love nor Hate
Can touch me there.
—William Winter.

ONLY ONE DRUNK ARRESTED ON 4TH

There was very little lawbreaking in the city on the Fourth. A man, who gave the name of Crosby, who had taken a drop too much in his celebration of the day, was picked up on Lakeview Avenue, in a very wobbly condition, by Chief Moore.

At a hearing this morning, the offender, who had sobered up somewhat from his night in the county jail, was fined \$10.35, including the costs, and sent on his way. He was a stranger in the city.

MISS EDITH GARDNER IS MADE CHAIRMAN

Miss Edith Gardner, local chairman of the Woman's National League has also been appointed local chairman of the Council of National Defense by the state chairman, Mrs. George Zimmerman, state federated clubs president.

Miss Gardner's executive ability as well as her interest and familiarity with the work of this splendid patriotic organization, make her peculiarly fitted to take on this added responsibility.

"SOME RUN" MADE WITH NEW BUICKS

Mr. Chas. B. Johnson, of the Johnson Auto Sales Company left Flint, Michigan, at 5 o'clock on the morning of July 4th, bringing home two new Buick "fours." He made the run with the two new cars from the factory to this city, 281 miles, arriving here at 6 p. m., without mishap. Mr. Johnson estimates that two hours of the time was consumed in getting lunch and laying in a new cargo of fuel and oil for the new cars. Nice little spin.

MUSIC MAKERS

The entertainment given by the Muskingum Music Makers in the United Presbyterian church last night was a splendid performance viewed from every standpoint. The troupe consisted of four singers and a reader. The music consisted of quartets and solos, coupled with selections on the piano, cornets and mandolins. The audience was large and enthusiastic. This troupe will be heartily welcomed to Moundsville for a return date at any time.—The Moundsville (W. Va.) Daily Eagle.

BIG MOVING JOB

The huge automobile moving van of Pyley and son did a record breaking business the first of the week. On Monday the van moved the household goods of Robert Swinshelm from N. North street to Springfield those of Grover Pammel to Columbus bringing back the goods of Peter Smeltzer to the home here.

Amsterdam, July 5.—Field Marshal Von Hindenburg, on his return from Austrian headquarters, predicted, according to a Berlin dispatch, that in the not too distant future Germany's enemies would be forced to make peace. The field marshal is quoted as saying: "If we hold our ground against enemy attacks until the summer war has done its work the war is won for us. Our enemies must continue their attacks, however hopeless they may be. They can not wait for the arrival of the American armies."

DEVORE DRAMATIC IN DECLARATIONS

"Things will come to pass which will show that I am not guilty," dramatically exclaimed Darrel Devore, when found guilty yesterday by a jury in common pleas court of grand larceny, and laying his right hand on a legal volume, he continued, amid a breathless stillness of the courtroom: "Upon this Bible I declare I am not guilty." Devore was charged with the theft of \$244 from the Nisley shoe store.

According to the testimony, Devore who lived with his mother at Washington C. H., held up the cashier of the store, situated in the Arcade, and extracted \$244 from the cash register, on the night of January 13, while the place was riled with Saturday night shoppers. In presenting the state's side of the case, the prosecution called attention to the fact that at least three employees of the store positively identified the prisoner as the man who entered the store and took the money.

On the other hand, counsel for the defense said the procedure for the identification of the man was unfair to the prisoner, and argued that human recollection was not infallible and that there were like types the world over. It was contended by counsel that the prisoner was at his home at Washington C. H. at the time of the robbery.—Springfield Sun.

MUSICAL TREAT PROMISED TONIGHT

From the highly complimentary press comments the people of Washington will find the concert given by the "Music Makers" at First Presbyterian church tonight at 8 o'clock a real musical treat.

The "Music Makers" comprise the Muskingum College Glee Club Quartet—four talented young fellows, and a reader. They give a splendid program.

Its purpose is to awaken interest in the college. There will be no admission charged, although a silver offering will be taken.

The public is cordially invited.

ANSCO CAMERAS

For the young folks, there is no camera to beat No. 2 BUSTER BROWN. It costs only \$2.00, but makes fine pictures and will stand hard knocks. So simple and efficient that any one can learn to make excellent "snap-shots."

We have larger Buster Browns at \$3, \$4 and \$5, also other Ansco Cameras, Speedex Film and Cyko Paper.

DELBERT C. HAYS

HAPPY THOUGHT FOR TODAY

THE HOME TEAM LOST

The home boys were defeated in yesterday's game, not so much because of tuff luck, but from a streak of good luck on the part of the visitors. But that was yesterday. We wish to call your attention to the fact that TODAY luck plays no part in our Laundry Service. We have it reduced to a science; and it is the same today and every day—just a little superior at no advance in cost.

LARRIMER LAUNDRY

AUTOMATIC 5201; BELL 188-W

MUSKINGUM BOYS HERE FOR CONCERT

The Muskingum Music Makers arrived in Washington this afternoon. They motored through from Zanesville where their last concert was held.

The boys are being entertained while in this city at the home of Mr. and Mrs. Chas. Reid and Mr. and Mrs. Austin F. Hopkins.

They will sing tonight at 8:00 o'clock in the Presbyterian church.

TALENT PROMISES NOTED CAREER

Mrs. Kate Porter has just returned from a delightful visit of a few days spent with the families of her son Benson Parrett of Springfield, and granddaughter, Mrs. Edw. Patecell of near Fremont City.

While there she had the pleasure of hearing Miss Merle Parrett in recital. Miss Merle is a violinist of the highest order, and holds her audiences entranced through the production of her wonderful tones, and splendid technique. Well known critics have predicted for her an artist's career.

They work while you rest—Herald "want ads."

In Social Circles

Mrs. Arthur Leland filled the role of hostess charmingly Thursday at an elaborate luncheon the first of a series, and characterized by perfect appointments and much beauty. It was in compliment to a quartet of visitors, Mrs. J. A. Squires the very attractive guest of the hostess, from Columbus, Mrs. Thomas Gockel, of Indianapolis, Mrs. Fren Sprenger, of Marion, Ill., and Mrs. H. M. Lewis, of St. Paul, Minn. The additional guests were confined to the intimate acquaintances made by the honor guests during former visits. They were Mesdames Austin F. Hopkins, M. E. Hitchcock Fran S. Jackson, W. M. Mitchener, P. M. Cook, Arthur Burkett, Fred D. Woolfard.

Patriotism reigned supreme in an artistic arrangement of red, white and blue. The table was a vision, with a gorgeous crystal basket of scarlet poppies and blue bells, the handle tied with big tulle bow of the three colors. The basket stood upon a mirror plateau, embedded in fern. The place cards love the flag and the favor baskets were red, white and blue shields and flags.

The colors were carried out in the different courses.

A Fourth of July affair of notable pleasure and interest was the Coffman-Edwards reunion, attended by fifty representatives of these well known families, at the home of Mr. and Mrs. Frank A. White.

The perfect day and the beautiful lawn, the background for patriotic trappings of flags and bunting, were accessories to the day's enjoyable visiting and recalling of early days and traditions handed down from these pioneers families of the county.

The splendid dinner, with huge platters of golden fried chicken, home made cakes and roles, every picnic delicacy and plenty of refreshing lemonade, was shown every appreciation.

It was decided to make next year's reunion a big picnic at Cherry Hill.

The following officers were elected: President, Mrs. F. A. White; Secretary, Mrs. H. G. Coffman; Treasurer,

Mrs. Thos. F. Parrett; Executive Board, Mr. H. C. Parrett, Chairman Dr. L. P. Howell, Messrs H. G. Coffman, Rollo Marchant and Albert McCoy; Entertaining Committee, Mesdames, Rell G. Allen, Chairman, R. W. Marchant, Alice Parrett and Lillie G. Davis.

Those coming from a distance were Mrs. Margaret Mallow, Mrs. Ben Coffman and two children, of Columbus; Mr. Ben Barrere and son, Miss Ethel McCoy of Wilmington.

Cedar Hurst was the scene of several delightful picnics in which the pretty summer cottages were made of advantageous use.

At the Earl Barnett cottage with Mr. and Mrs. Barnett and son, Edgar Earl, were the McCoy-Junk families, including Mr. E. A. McCoy and family, Mr. James Hays and family; Mr. J. Earl McLean and family; Mr. Walter Hays and family, Mr. and Mrs. Martin Junk, daughter, Miss Etta, of Austin; Mr. Elmer Junk, Mr. Troy Junk, Mr. Walter Jones and their families.

At the Craig cottage gathered Mr. T. H. Craig, daughter, Miss Mary; Mr. W. D. Craig and family; Mrs. Minnie Brown, Dr. Lucy Pine, Miss Ethel Pine.

A jolly motoring picnic party of twenty-one enjoyed the Fourth on the Bowman Hess farm, "The Willows." The party included Mr. and Mrs. E. L. Bush and daughter Miss Dorothy; Mr. and Mrs. C. A. Cave; Mr. and Mrs. Noah Smith and daughter Miss Ruth; Mrs. Harry Foreman, daughters Elsie and Mary; Mr. and Mrs. J. W. Anderson; Miss Chloe and William Anderson; Mr. and Mrs. Clark Rowe; Mrs. John Deere; Mrs. George Pensyl; Mr. and Mrs. Harold Anderson; Mrs. Taylor Mantle; Misses Jessie Mantle and Rachel Holland.

The girls of the Wednesday Club of Bloomingburg celebrated the Fourth with a picnic spread and jolly good time at the country home of Mrs. Joseph Allemang.

A host of friends are eagerly awaiting

the return of Mr. Sherman T. Holser and his bride (nee Mary Mark) from the Dahl-Milikan outing to extend belated good wishes.

It is gradually becoming known that Mr. Hosier son of Mr. Chas. Hosier, of Jeffersonville, and nephew of Mr. H. C. Hosier of this city, and Miss Mark, daughter of Mr. Harry Mark, of Plymouth were married last Saturday evening at Grace M. E. parsonage by the pastor, Rev. Arthur P. Cherrington.

The young couple leaving on the Dahl-Milikan trip, asked that the announcement of the wedding be postponed a few days. The bridegroom is a popular teacher of Concord town ship and he and his charming bride expect to reside in Milledgeville upon their return.

Rev. Arthur P. Cherrington united in marriage at Grace M. E. parsonage at nine o'clock Thursday morning Miss Hilda Dillon, daughter of Mr. Lamuel Dillow, of Rock Mills, and Mr. Lawrence Augustus, son of Mr. R. P. Augustus, of Good Hope. The parents Mr. and Mrs. Augustus witnessed the ceremony.

The young couple have the best wishes of many friends. They will reside temporarily with the bridegroom's parents.

Captain O. E. Hardway, of the Ohio National Guards, was given a delightful surprise in anticipation of his approaching departure, at his home on the Creek road, Thursday evening.

Fifty near relatives gathered with picnic hampers well filled and Victrola music contributed to a merry evening.

The Men's Bible Class of the First Baptist Sunday School and their wives enjoyed the beauties of Cedar Hurst and a merry day picnicing the Fourth.

The Christian Sunday School picnic on the Fourth at the Proctor farm was a big success with a good crowd and the shady woods and clear stream providing a cool and delightful resort.

Miss Opal Moore and guests, Miss Allene Winters of Philadelphia, Miss Doris McFadden, Messrs Edwards Hopkins, Kenneth Kerr and Paul Craig enjoyed a picnic at "Tick Ridge" Tuesday night.

PERSONALS

Mr. Martin W. Morris of Bloomingburg visited his sister, Mrs. Electa Selsor, and Mrs. S. Van Pelt, this week.

Mr. Harve Smith came over from Middletown to join his family for the fourth and visit his mother, Mrs. Abner Smith.

CALL FOR WOMEN TO SEW IN RED CROSS WORK SHOP

The Red Cross workshop is open; specifications for Box No. 2 have arrived; a good supply of material is on hand; and there is plenty of work to be done. A call is being sent out to women of the city and of the county who can use needles and shuttles to co-operate with the workshop committee by offering their services.

The workshop is open every afternoon on week days from 1:00 to 5:00 o'clock. Every woman's help is needed.

The Woman's Finance Committee, Mrs. Howard Griffiths, chairman, will meet this evening to promulgate plans to be worked out as soon as the war fund campaign is over.

Nearly \$5,000 has been subscribed to the national organization in the campaign that is to close shortly. More than 1000 citizens of the county have contributed to the fund.

LOCAL BAND GOING TO BUCKEYE LAKE

Friends and admirers of the Washington band will be pleased at the splendid compliment which has been paid the boys in being selected by the management of Ohio's biggest summer resort—Buckeye Lake—to furnish the music at that popular resort on Sunday, July 15th.

The selection of our band boys for this work proves two things—that the management over at Buckeye Lake knows good music and is determined to get the best attractions obtainable.

A number of local citizens are considering accompanying the boys in autos when they leave here Sunday week. The trip would be ideally beautiful, going or coming through the rolling sections of Fairfield county.

The new management at Buckeye Lake has fairly transformed the resort—there is no more beautiful, no cleaner, no more moral place in this whole section of the country now than Buckeye Lake. An ideal resort only seventy miles from Washington for the whole family.

CLASSIFIED.

HERE'S YOUR CHANCE—To join with a live-wire rubber tire company in representing them in your section of the country. There was never a greater demand for tires than there is today. The Superintendent of this company has had 14 years experience with some of the greatest rubber tire companies in the world. In connection with this company you should average at least \$100.00 per week in commissions. All that is required is wide acquaintance in your section and sales ability. Write to us at once if interested and we will be glad to give you full information. Address Dept. AA, 304 Ohio Bldg., Akron, Ohio. 157 t1

FOR RENT—Office rooms in my office, C. A. Cave. 157 t6

WILMINGTON WINS FIRST OF SERIES

Without detracting From the Good Work of the Visitors Old "Tuff" Luck Put Our Boys Out Early in the Contest.

Short Left Field Fence, Deuces Wild and Aces Turned the Trick.

may seem a little far fetched to charge a game lost by a score of 2 to 4 to old "Tuff" Luck, but the game of July 4th was lost just that way by the Athletics.

Giving old T. Luck credit for Wilmington's victory does not in the least detract from the good work of the visitors. They played the game from start to finish—played it well and were entitled to their victory—but they got the breaks—all of them. Deuces wild and a few aces played havoc with the bright hopes of the big holiday crowd of fans and brought joy to the big bunch of enthusiastically and well behaved but gossamer rosters from the capital of Clinton county.

The short left field fence was responsible for seven of the visitors' rallies—long flies which would have been easy outs, on a deeper field, sailed four times, majestically over the barrier for circuit hits—each time with a runner on bases after two were out.

In three out of four times the runner on bases got life by an ugly break

of the hit ball out of reach of the fielder set to handle an easy out. It can't happen that way any more.

FIRST INNING.
Martin was retired, short to first. Frey fouled to Lewis. Reilly singled past Doyle. Nesser laced one over the fence. Grady out, Doyle to Adams. 2 hits, 2 runs.

Frohnhofer grounded to Heironamus to Nesser. Lewis was safe on Frey's error. Doyle fouled to Frey. Lewis going to second on the out. Adams out. Grady to Nesser. No hits, 1 error.

SECOND INNING.
Emery flied to Doyle. Davis singled. Jones misjudged Corwin's fly to center which resulted in two more rallies crossing the plate; it should have been an easy out. Heironamus singled. Martin hit a hot one to Adams who made a double play unassisted. 3 hits, 2 runs.

Noon led off with a single, but was forced at second by Jones. Ryan grounded to Corwin to Nesser.

THIRD INNING.
Frey struck out. Reilly singled and was forced at second by Nesser. Grady put one over the left field fence. Emery flied to Frohnhofer for the third out. 2 hits, 2 runs.

Matthews grounded to Heironamus to Nesser. Reno was sent in to bat for Larson and reached first on Martin's error. Frohnhofer flied to Grady. Lewis out. Frey to Nesser.

FOURTH INNING.
Davis, the first man to face Mr. Hussey, led off with his second single. Corwin sacrificed. Heironamus out. Lewis to Adams. Martin thought it was his turn to walk around the diamond, so he put one out of the lot. Frey struck out. 2 hits, 2 runs.

Doyle singled. Adams hit to Nesser but both runners safe on Corwin's error at second. Noon tripled to right sending two runs across for the locals. Jones tripled, scoring Noon. Ryan singled scoring Jones. Matthews hit into a double play. Frey to Martin to Nesser. Hussey grounded to Heironamus to Nesser. 4 hits, 4 runs.

FIFTH INNING.
Reilly out, Lewis to Adams. Nesser singled. Grady doubled. Emery hit to Doyle, who threw out Nesser at the plate. Davis out. Lewis to Adams. 2 hits, no runs.

Frohnhofer singled. Lewis fouled to Frey. Doyle hit into a double. Martin to Corwin to Nesser. 1 hit, no runs.

SIXTH INNING.
Corwin went out on a fast play by Frohnhofer to Adams. Heironamus doubled to left field. Martin singled, scoring Heironamus. Frey flied to Noon. Martin was caught stealing. 2 hits, 1 run.

Adams led off with a double. Noon flied to Reilly. Jones flied to Frey. Ryan out. Frey to Nesser.

SEVENTH INNING.
Reilly grounded to short out at first. Nesser out the same route. Grady flied to Jones.

Matthews fanned. Hussey singled. Frohnhofer hit into a double. Heironamus to Martin to Nesser.

EIGHTH INNING.

Emery singled. Davis was safe on error by Lewis. Corwin doubled to Center, scoring a couple more. Heironamus grounded to short to Adams. Martin flied to Hussey. Frey fanned. 2 hits, 2 runs, 1 error.

Lewis grounded to Martin to Nesser. Doyle out Corwin to Nesser. Adams flied to Reilly.

NINTH INNING.

Reilly safe on error by Adams. Nesser singled. Grady hit into a double. Frohnhofer to Doyle to Adams. Reilly scoring. Emery flied to Matthews. 1 hit, 1 run, 1 error.

Noon walked. Jones out. Heironamus to Nesser. Ryan flied to Martin. Matthews singled. Hussey struck out.

The score.

CLOSING RECITAL

Next Saturday afternoon at 2:00 o'clock will be the closing recital of the season at the Stinson School of Music in which Misses Nelle Mickel, Wilma Lynch, Donna Barnett, Abbe Reeser, Faye Wood, Doris Sollars and Doris Keller will take part, assisted by students from the Elocution and Vocal departments.

At three o'clock the management is preparing to stage a Historical Play, let, by the following characters: Frank Boylen—Johann Beethoven. Joannett Bryan—Mother Beethoven. Robert Schneider—Ludwig Beethoven.

Donna Barnett—Old Styled Musician.

Mary Francis Schneider—Pisau Mozart.

Mrs. Stinson—Wolfgang Mozart.

Earl Cannon—Guest.

The public is cordially invited to attend the above program.

WHEAT HARVEST IS WELL UNDER WAY

Wheat harvest about the county is well under way, in some parts. Many fields have already been finished, and laid by for thrashing, and the balance of the harvesting will be pretty well cleaned up by the first of next week.

In the southeastern portion of the county, where the greater part of the harvesting has been done thus far, the wheat is reported to be of unusually good quality, and the heads are well filled out.

There is a larger acreage of wheat in Fayette county this year than for several years past.

ALL PARIS HONORS OUR "REGULARS"

Millions In France Celebrate the Fourth of July.

Paris, July 5.—All France celebrated the Fourth of July. Paris turned out a crowd that no American city ever surpassed for size, enthusiasm and profusion of Stars and Stripes. A battalion of the first American expeditionary force about to leave for training behind the battle front had its first official review in France and was the center of the celebration.

Everywhere the American flag was flying from public buildings, hotels and residences, and from automobiles, cabs and carts; horses, bridges and the laps of pedestrians carried them.

The crowds began to gather early at "Lage points. Rue de Varenne was choked when the Deputation Wards band executed a field reveille under General Pershing's window, and all routes toward the Invalides was thronged even before Pershing's men turned out. At the court of honor, where the Americans were drawn up with a detachment of French Territorials, the buildings overflowed with crowded humanity to the roofs.

All around the khaki clad men from the United States were trophies and souvenirs of war—German cannon, machine guns and many appliances for burning suffocating gas. Behind them in the chapel separating the court of honor from Napoleon's tomb were German battle flags, trophies of the Marne and Alsace, beside Prussian banners of 1870. There in the chapel before the tomb of Napoleon General Pershing received American flags and banners from the hands of President Poincare.

The enthusiasm of the vast crowd reached its highest pitch when General Pershing, escorted by President Poincare, Marshal Joffre and other high French dignitaries, passed along reviewing the lines of the Americans drawn up in square formations. Cheering broke out anew when the American band struck up the "Marseillaise" and again when the French band played the "Star Spangled Banner" and Pershing received the flags from the president.

"JUNGLE NURSERY" IS CIRCUS FEATURE

In America the Menagerie is an indispensable part of the Circus, and from the juvenile point of view, a circus wouldn't be a Circus without one.

If advance rumors about the John Robinson Show which is to exhibit here on Saturday, July 7th are to be credited, then this section of the exhibition will prove of universal interest, for not only is there a great diversity of animals, but there is also an interesting collection of infants, in what is termed by the show's press agent the "Jungle Nursery."

By his unusualness, the most important of these infants is "Congo," the baby Hippopotamus who was ruthlessly separated from his birthplace and Miss Murphy, his doting mother at the Central Park Zoo, New York. He was purchased from the park commissioners by John Robinson last February. After the purchase was announced vigorous protests were made by the children of Gotham with whom he was a first preference favorite. This was taken up by the metropolitan newspapers, and when the outcry grew strong the commissioners wanted to buy him back.

When it was time for "Congo" to make his adieux and depart for the John Robinson Circus, quite a mob of children, as well as Bill Snyder, his keeper, and several of the Commissioners were down at the East River to see the last of the cherished youngster.

There are lots of other interesting babies in the zoo nursery including baby lions, pumas, kangaroos, leopards and two little brown bear cubs, who are natural comedians and so full of fun that they come in for a great deal of attention, not only from visitors but from the show folks as well.

There is also a wonderful showing of hillputian animals including elephants in striking contrast with the largest of the big herd.

UNDERWOOD'S BANK INK Is everlasting. Writes blue and turns an intense, permanent black. Good for office or home use. Fresh shipment just received at Rodecker's New Stand.

HOME GARDEN SUGGESTIONS

When thinning carrot beds, be careful not to throw away vegetables as large as a dime for this size is the best for canning, says today's bulletin from the National Emergency Food Garden Commission, which is co-operating with this newspaper in its campaign for food conservation.

Wash carrots thoroughly with a stiff vegetable brush, blanch for four to six minutes, then plunge into cold water for an instant and remove outer skin with the stiff brush. The carrots may be cut into strips or cross-sections, or used whole. After packing jars add a level teaspoonful of salt per quart of vegetables and fill the jars with hot water. Adjust tops and partially tighten them, and sterilize for an hour and a half. (If using tin cans, seal completely before sterilization.) Remove jars from boiling water, tighten tops and invert out of a draught to cool.

For storing, wrap jars in dark paper to prevent bleaching.

In her list of canned vegetables, the careful housewife will include Swiss Chard and French endive.

These greens should be used only when fresh and crisp. Pick them over carefully and wash thoroughly, and then blanch in a steam for fifteen minutes. After blanching, plunge into cold water for an instant, cut into desired lengths and pack tightly into jars. Add sufficient hot water to fill containers and season to taste. Partially tighten jars, sterilize for 2 hours in boiling water and finish sealing immediately. Invert out of a draught to cool, wrap in dark paper and store in cool, dry place.

The commission will send its canning or drying manual free to anyone who will send a two cent stamp for either to pay postage. Simply enclose the stamps and write to the National Emergency Food Garden Commission, 216 Maryland Bldg., Washington, D. C.

THE MAKINGS ARE HERE FOR A BIG BUILDING BOOM

If You Can Take Care Out of the Scare, Says the Man From the Lumber Yard.

(Courtesy The American Builder)

Did you ever go swimming about this time of year? Do you remember how you stood on the bank shivering, putting first one foot in, then the other? Possibly you would be there yet if one of the other chaps hadn't pushed you in. How nice and warm it was after the first shock!

Well, our country is undergoing that shock at this particular minute.

No one pushed Uncle Sam into this fracas. He went in deliberately. He wasn't any more excited than you would be in rescuing a drowning cat from the river. Only, our dear Uncle is saving a principle worth fighting for. He may get his feet wet—may bark his shins—may lose his hat—but this will be only incidental. As to how soon Uncle Sam gets out, and what will be his condition after it is all over, depends on you and me!

Almost everyone knows Frank Crane, the writer. I generally swallow what he offers without question, but I dissent from a suggestion emanating from him to the effect that during the war women should wear black only, that no social gatherings for amusement be held, and every church be hung in mourning. Do you know that such surroundings would eventually dry up the output of dairies or produce sour milk? We know the effect that surroundings have on the kine. Don't let us forget the effect of environment on the human kind.

I want my wife to be sympathetic, but I don't want to find a funeral in the house every night I come home. Nor does any other man.

It wouldn't get us anywhere. It isn't worry we want, but WORK.

Hogs, Hens and Humans.

Don't waste time in regrets, but bend every energy in helping to win. The man who makes every nail count without waste is doing "a bit."

Every man who drives a nail without splitting the board, who utilizes the scrap in order not to cut into a new board, is helping to win the war. Especially is he a patriot who makes possible better protection to food-stuffs in granary or warehouse. And equally is he a patriot who gives better living conditions to cattle and children to hogs, hens and humans.

I arrange these five classes in this way so you will "listen."

It goes without argument that hogs should be properly housed because they are worth big money. But Uncle

Sam must depend on his humans not only during the war, but after.

Cut One End to Patch the Other.

A contractor friend of mine in the city of Brotherly Love, where untold quantities of ammunition are being made, tells of needing a 12-foot plank for the plasterers to use when wheeling mortar. Being busy on another part of the building, he told his Irish helper to fix it up. Returning in about fifteen minutes he found him sawing a two-foot piece off of a ten-foot plank and was informed that "it was just so short on the other end."

Equally unwise is the alarmist who would stop every activity not DIRECTLY connected with the war.

Saved a Dollar's Worth of Grain—

Lost a Hundred Chickens.

We don't want less patriotism, but we do want less emotionalism. We don't want less willingness to sacrifice, but we do want more sanity in service.

There are many things worse than dying. There are millions of us willing to die if deaths would gain any thing. Remember, it is worth a great deal more to our cause to have a million of the enemy to realize defeat than a million of our own bunch. Nothing would serve the Teuton better than for our economic fabric to go to pieces.

I note a disposition in some quarters to act like a neighbor of mine. This was back in the days when I was keeping books in my father's lumber yard.

The grasshoppers made a clean sweep of everything in that section. There wasn't a green thing in our town, save the house and picket fence of Widow O'Riley, who always kept them painted green in honor of St. Patrick.

A neighbor of ours had a great bunch of chickens. They practically kept him.

He was a flighty sort of fellow, as was his wife, also. When the grain question became acute he started in to economize by shutting off feeding his chickens. My father noticed a dozen dead chickens thrown out into the alley and investigated.

He found that the man had figured that the grasshoppers were destroying everything and it was better for the chickens to starve than for him.

It didn't take long for my father to open his eyes to the absurdity of his action. This man lost fully one hundred chickens and saved possibly a dollar's worth of grain.

Whenever anybody in that community wanted to illustrate an inconsistency they always referred to Mr. O'Riley, starving his chickens to save grain.

This is so absurd that it is almost

unbelievable; but it is no more absurd than the hysteria of economy that some people are preaching with out practicing and others are quietly practicing.

Five hundred thousand are being mobilized. That is one out of every two hundred.

Don't overlook the one hundred and ninety-nine.

The Home Line Defense.

Uncle Sam must look after the front rank—must feed our own boys and help supply the needs of our allies.

The more butting in you do in what isn't your job, the more you throw the monkey wrench into the machinery. The more you carry of someone else's load, the more you incapacitate yourself.

Your job is to look after the "home defense line." Thousands of children are growing up enemic and pale, because of improperly balanced feeding and poorly ventilated sleeping rooms.

Every time you make it possible for that boy of twenty to have better air in school, work shop or home you are doing a humane act just as much as the giving of a glass of water, and you are building Uncle Sam's resources.

Producing Power.

Do you know what our prime personal duties are? If I am wrong drop me a postal card, for I want to get it right. I believe they are (1) building good healthy bodies; (2) equipping those bodies with active minds that make people, not dummies, out of these bodies; (3) put spirits in those bodies that are aggressive if in command, obedient if in the ranks, but at all times masterful of self. With that kind of producing power Uncle Sam is invincible.

Uncle Sam's Purse.

Canada suffered a considerable period of depression when she entered the war. The quota which was rushed to the front was enormously heavy as compared to ours. She was an infant in finance compared to us. To day she is enjoying a material prosperity never before touched in her history. We start in where she now is. Do you know that your Uncle Sammy owns one-sixteenth of all the land in the world and has in his purse one-fourth of all the cash?

We are so rich that our new war indebtedness is a mere fleabite. Even at 4 per cent it means an annual burden to each of us of only \$1.40.

What Seven Billions Extra Earnings Mean.

Then, on top of these facts please consider this pertinent fact, that over, and above the ordinary revenues there will be paid out in the next year some seven billions of dollars, much of which will go for wages, either through the medium of the farm, or factory, or mine.

Yes, a big lump of these earnings will eventually go for automobiles. Fine raiment will get quite a percent age.

How much will go into better homes, better housings for stock and for grain?

But do you know how much seven

billions of dollars is? I began thinking about it, but had no way to gage it; I went into a bank and asked to see a pile of silver dollars.

The banker kindly let me measure a stack of ten, which showed exactly one inch. You can figure it out if you are curious to know how high seven billion dollars would reach if piled one on top of the other.

You may not know that the Eiffel Tower in Paris is a thousand feet high, but it is.

Well, if you built a thousand towers one on top of the other, your seven billions of dollars would be higher than fifty such pyramids.

I never get tired from carrying my money, but I find that fifteen trains of thirty 36-foot freight cars, each carrying thirty tons, would be required to carry this sum of seven billions if in silver dollars.

I never became expert in counting money, but I believe I could count three silver dollars a second or 180 a minute, which would be 108,000 in a day of ten hours.

You would sleep without rocking if you kept up that speed, day in and day out. But to count the seven billions of money you would have to put in the ten hours per day, six days in the week for each of the fifty-two weeks for over two hundred years.

What vision do you see in this?

I know that there is less of dissipation and debauchery today than ever before in our history. Temperance and severity are growing with all. One good thing about the war is that more people are doing serious thinking than ever before.

A Vision of Building.

Suppose a third of this "extra" money goes to help the unfortunate of the world and for frivolities, and suppose another third went for what might be classed as necessities. There will be enough left over to build a MILLION HOMES fit for any of his MAJESTY, the American Citizen.

Have you enough imagination to picture a million new homes? Think of the proud owners and the happy children.

Due The Child.

The "American Builder" is not the place to discuss psychology, but you can tell the difference in the children of home-owners and renters.

You, Mr. Builder, are working for our country, and the betterment of the race in future generations when you urge HOME building on the attention of the people of your community.

High Prices.

Are you met with the reply that prices are too high?

Ask when they will be lower, ask when a bushel of wheat, a hog or a horse, would buy more than they will today. Everyone knows that prices will not be lower during the war.

Let me tell you something else. Prices will not be lower for many years after the war.

History tells us of the boom of prices after the war of 1861. That war was a mere fly-speck. Were this war to close today, we would have all Europe to rehabilitate.

We will have Russia to supply with tools, implements and manufactured goods to the extent never dreamed of in the development of our great West. They have 165,000,000 people; unlimited acreage; they need to be shown HOW.

All this will have to be done with a lessened force of labor, paid a wage never heard of before.

Set a date of ten years after the ending of hostilities for the first of any prices lower than today's. Many machines are being sold today, because of fierce competition of makers, at less money than they can be produced if the material had to be bought today. These will be higher in price, not lower.

Don't Be a Germ Carrier.

Our doubts are traitors, and by fearing to attempt, make us lose the road we often might win. From my way of thinking, no day is a good day for gambling. There is no doubt in my mind that this is an excellent day for cool-headed conservative aggressiveness. And, contrarywise, this is not a day for the calamity howler to rock the boat. One man running muck in a crowd may cause a whole bunch to become demoralized, and no man in a community can tie up the purse strings of many an enterprise.

Some men are regular germ-carriers and inoculate every one they touch with the poison of fear.

Get Together With the Other 'Fellow' Team work can go anywhere. Team work can tear down the mountains and cast them into the sea. The farmer, the miner, the mechanic and the builder must co-operate as smoothly as the four wheels of a motor truck.

As I walked down State street, Chicago, several days since, I was impressed with the difficulties confronting the passage of street cars.

Collision with pedestrians and vehicles had to be avoided. Passengers getting on and off had to be cared for, yet each car made its passage with injury to none. There was perfect union between the two eyes, two hands and a brain in front, and the two eyes, two hands, and brain be-
